

# Reduce Costs and Improve Operations with an Incentivized Energy Efficiency Project

Low-cost financing solutions are available from Eversource and United Illuminating to help you make energy improvements to your business, reduce your energy bills, lower your carbon footprint, and improve the comfort and safety of staff and customers. All programs include a free energy assessment and a comprehensive proposal including estimated cost savings and electricity and gas usage savings.

Eversource and United Illuminating are offering higher tiered incentive programs in 2019 and 2020 for projects that reduce multiple building energy sources.

Program	Customer Qualification	Financing	Incentives
Small Business Energy Advantage (SBEA)	Annual energy usage under 750,000 kWh or less than 200kW demand	On-bill, 0% interest payment with no upfront, out of pocket costs in many cases	Up to 65% of Project Cost
Energy Opportunities (EO)	Customers with annual energy consumption or demand above SBEA levels	0% or low-interest rate financing	Up to 65% of Project Cost
Multifamily	Buildings or complexes with 5+ units including condominiums, long-term care, senior, mixed-use and commercial properties. Income eligible properties included	0% or low-interest rate financing	Incentives from 40%–80% of Project Cost

Artis Energy Solutions provides integrated turnkey solutions including high-efficiency lighting, lighting controls, HVAC and refrigeration systems, and energy management systems to lower costs, reduce energy usage, and help you achieve your business goals. AES has been a qualified United Illuminating and Eversource programs contractor for over ten years. We prepare and submit all information to secure utility incentives on your behalf. Our services include a full-year warranty on all labor and parts.
